HICKMAN, KENTUCKY, THURSDAY, OCTOBER 5, 1916

Number 15

NEW WHOLESALE GROCERY STARTS AT HICKMAN.

Hickman is to have another wholesale grocery store, to be known as the Cash Wholesale Grocery Co., of which Mose Barkett is the head, and John T. Dillon will look after the company's books and office work. Mr. Barkett, who is well known in mercantile circles throughout this section, is in the market this week buying his stocks.

The concern will be located in Barkett's building on Clinton street, better known as the old H. C. Amberg building. Mr. Barkett last year purchased the J. L. Amberg grocery store and stock and has been running a retail grocery in this building, but this stock is being shipped to Bondurant, Ky., to make room for the wholesale concern.

While Hickman already has two big wholesale grocery concerns, Mose believes there is still room for another in this territory, as Cairo, he says, sells considerable goods here—more than enough to satisfy him if he can get that business.

Mr. Dillon is one of the finest accountants and bookkeepers in the State, and Mose is a trade hustler; so the two ought to make a trade-pulling team.

TAX BOOKS READY.

The 1916 tax books are now open. See me at Hickman Bank & Trust Co., and pay state, county and school tax. Respectfully—Bailey Huckleston, Sheriff of Fulton county.

STOCK BARN BURNS.

Henry McClannahan, of Crutelfield, lost a big barn by fire Sunday night. When discovered the fire had made such progress that nothing could be saved. The barn was stored with baled and loose hay, machinery of all kinds. At the time of the fire two mules, a horse and a cow were in the barn and could not be saved. Insurance amounting to \$500 will partly cover the loss.

Subscriptions to the Courier are rolling in at a rapid rate now-a-days. People we never saw before are coming in and plunking down a dollar with orders to "send it a year and don't let me miss a copy."

Miss Ola May Bryant, of Jackson, is the guest of Miss Thelma Baltzer.

News Snapshots Of the Week

Although anti-aircraft guns dropped two huge Zeppelins which did considerable damage near London, the army followed up her loss with another raid. The king of the traction systems of New York city has brought into use novel conveyances for getting to and from work. Shooting at an invisible target eleven miles away, the crew of the Pennsylvania scored fourteen hits. The king of Greece became convinced of the necessity of joining the allies in war after ex-Premier Venizelos threatened revolution. The wonderful British armored cars called "tanks" aided in the Somme advance, which engulfed the strategic town of Comblès. At the opening of the German reichstag Chancellor Bethmann-Hollweg declared against a ruthless U boat warfare. William F. McComb, Democrat, and William Calder, Republican, won the nomination for United States senatorship in New York. Believing the paralysis epidemic checked, New York city schools were opened.

COTTON HIGHEST EVER. CREED NETS 7 1/2c IN SEED.

John Creed, local planter and business man, sold a bale of cotton Monday that netted him 7 1/2c in the seed. It was, of course, a nice staple.

Many loads of cotton sold Saturday up to \$6.85 a hundred in the seed, but Mr. Creed's cotton, by reason of having it ginned, turned out an equivalent of 7 1/2c in the seed.

It might also be said that the highest prices ever paid here for cotton was paid yesterday when the market went to 7 1/2c in the seed. The previous high-water mark was made last year when the market touched \$6.20. There is even talk now of seed cotton, which would be "some price, I think you."

At the present prevailing prices, cotton raisers are enjoying real prosperity; share-croppers are paying out and squaring up many old accounts made back in 1914, when cotton was going at 1 1/2c a pound.

The fire whistle hasn't blown in a long time—but look out when cold weather starts. Fires will follow—and it may be your property. Better have it insured by Henry & Henry. They pay losses promptly.

Mrs. Maggie Randle left Tuesday for Paducah to spend a few days.

EXCERPTS OF WILSON'S SHADOW LAWN ADDRESS.

Time out of number America has devoted itself to peaceful pursuits, and business is the expression.

There never was a time when the pulse of energy and success beat so high in the blood of America.

It would be intolerable for the commerce of the country to be held up.

I do not regard the principle of the eight-hour day as arbitrary.

Labor is not a commodity but a co-operation.

The chief cloud on the American horizon is the relation between capital and labor. So long as these are antagonistic there will be danger.

Court decisions show that an investigation is the only way to decide whether the railroads can afford an eight-hour day. I believe in the eight-hour day because under it the men can do better work.

A way must be found for preventing a repetition of a situation like the threatened railroad strike.

America is never going to say to individuals "you must work," but it is going to tell organizations of men that they shall not interrupt the life of the nation.

TWO BURIED SAME DAY FROM SAME TOWN.

An incident of unusual occurrence was that of two corpses, both from the same town, being brought here on the same day for interment. One of these was the two year old daughter of Mrs. Annie Bradley and the other a small child of Herman Choate, both of Hickman. The little bodies were brought here Monday. The child of Mrs. Bradley was buried in the Bradley graveyard north of town, while the child of Mr. and Mrs. Choate was laid to rest in the city cemetery. Both were girls and only a few months difference in their ages.

HUNZIKER-PLUMMER. MARRIED AT UNION CITY.

Miss Irene Plummer and Felix Hunziker, two nice young people of Hickman, were united in marriage at Union City last Friday evening, by and at the home of Rev. H. A. Todd of the Methodist church.

The couple motored over accompanied by Leslie Stoker, Ernest Richmond, J. R. Brooks and the bride's sister, Miss Sallie May Plummer, who witnessed the ceremony.

The bride is a daughter of Mr. and Mrs. Tom Plummer and a fine, sensible young lady. The groom is a son of Prof. A. J. Hunziker and wife. He is an industrious, honest, clever young man. At present he is employed by the Hickman Drug Co.

The contracting parties have many friends, whom the Courier joins in extending best wishes.

FUNNY ADDITION SUM.

How many apples did Adam and Eve eat?

Some say Eve 8 and Adam 2—a total of 10 only.

Now we figure it out far differently: Eve 8 and Adam 8 also—total 16.

We think the above figures entirely wrong.

If Eve 8 and Adam 82, certainly the total will be 90.

Scientific men, however, on the strength of the theory that the antediluvians were a race of giants, reason something like this: Eve 81 and Adam 82—total 163.

Wrong again. What could be clearer than if Eve 81 and Adam 82 the total was 93?

I believe the following to be the true solution: Eve 814 and Adam 824 Eve—8938.

TO TAKE VOTE ON BOND ISSUE FOR STREET WORK.

At the Monday night meeting of the city council, it was decided to submit to the voters of Hickman the proposition of voting \$20,000 bonds for the purpose of street improvement. It will be submitted at the regular November election. It has been calculated that the money we spend patching streets will be sufficient to pay off the bond issue—and this has proven to be the case at Clinton, Fulton and other cities that have built streets by issuing bonds.

As a matter of fact, this issue could not be sold legally unless the water and light bond account, now pending in the court of appeals, should be decided in favor of the city. But there will be no harm done in voting on the issue during the interim. If the city wins in the case, then the bonds can be sold and the work done.

SUGAR FAMINE SATURDAY.

For the first time in history, probably, Hickman merchants ran short of sugar Saturday and were unable to secure a pound from either of the local wholesale groceries. This is also reported to have been the situation in Cairo, Union City, Fulton, Martin and other cities in this section.

From what we are able to gather from wholesalers, the big sugar concerns contracted their entire output for two weeks to the French war department. Jobbers and wholesalers have been buying in short orders on account of the unsettled market and were therefore caught without a supply; hence, the retailer was forced into a sugar famine.

Mrs. Nannie Clear, of Troy, Tenn., is visiting her sister, Mrs. Val Carpenter.

Mr. and Mrs. Jack Millet, Mr. and Mrs. Sude Naifeh were visitors in Fulton Sunday.

Miss Dora McNeil has accepted a position as stenographer with the Mengel Box Co.

Hon. Josh Catlett, of Princeton, was in the city Monday in the interest of the Democratic work in this district.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel Is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe. Adv

OLD POEM REVAMPED.

Woodrow Wilson, on a windy day, was out in the field making hay, when the judge came prancing up the lane, stroking his whiskers, now quite tame. Now the judge knew naught of the art of cutting the clean, sweet hay; but he pranced to the tune of lively tones, and danced as he rattled some old dry bones. This hay was cut in the wrong of the moon, it was raked and mowed a mile too soon; the tariff and Teddy were both quite right but the Dutch are making a hell of a fight; the 'South in the saddle' is riding to ruin, the 'rebels' are grasping in vain at the moon; and, horrors, shame up on shame, thy're fired a Republican out in the rain. The plenty plenty we see is a mirage not real, was another phase of the Judge's spiel, for he had it all down in his book of rules, that we'd "anchored our ships in a haven of fools." And then as the Judge went on with his speech, he took a bold swipe at all within reach. He prated and prattled, declared with a vim, that all the virtues were wrapped up in him. "For I am the man the gods have empowered; bosses have chosen and abundantly dowered; I am the Moses, the leader of man; my like is not found, nor will be again. I will do this and I will that. I am telling it straight from under my hat. For whatever is wrong, I surely can fix it; I am aene, epitome, de jure ipse dixit."—Ex.

County School Notes

Prof. J. V. Chapman, of Franklin, has been appointed to succeed Prof. T. T. Coats as State Supervisor of Rural Schools.

Crutcherfield has organized a progressive school improvement league and also a literary society. There seems to be a renewed interest in the school this year and a hearty spirit of cooperation shown by all. The league is planning to paint the school building and to improve the library.

November 10th is Arbor day. Several of our schools will set out trees as shade is much needed. Let us select them with care and place them in the right location keeping in mind the ball ground, tennis court, etc.

Last week quite a number of schools had a special clean-up day with excellent results. Old calendars were taken from the walls, windows washed, stoves polished, and everything arranged in an orderly and attractive manner. The grounds were also improved. The league in one district has arranged to meet and wash the walls of the school room. Another school has fresh white sash curtains at the windows. Another has a few growing plants. Several have well selected pictures, copies from the great master pieces, framed in neat black or brown frames. In fact nearly every school in the county has a few good pictures.

Friday, Oct. 13th, will be "library day," and we are asking every teacher to have all books in the library that day so they may be checked at the school and a report made to the county superintendent. Every book belonging to the school library must be recorded and numbered. If any library labels are needed call for them beforehand. No book can be taken from the school until the name of the pupil and the number of the book is recorded in the record book. Books must be taken out on Fridays only. Books lost must be paid for.

The common school term is seven months this year. Cayce and Sylvan Shade will have a nine months term, and Jordan an eight months term. The term in these districts, as well as in graded schools, is extended by local funds.

FORECAST SMALL CROP.

Washington, Oct. 2. — Storms and insect damage have wrought havoc with the cotton crop this year and caused a loss of almost 3,000,000 bales throughout the growing season.

This year's crop will be approximately 11,637,900 equivalent 500-pound bales, according to the Department of Agriculture's forecast made today, basing its estimate on the condition of the crop on Sept. 25. In its first forecast of production, made from conditions existing June 25th, the quantity was estimated at 14,266,000 bales. The condition of the crop on September 25th was 56.3 per cent of a normal, which is the lowest condition on record for that time of the year.

The weather during the month was very favorable for gathering the crop and the high prices prevailing for both cotton and the seed caused the farmers in all parts of the south to rush gathering and ginning, and there has been a much larger percentage of the crop put through the gin than usual at this time of the year. In Southern Mississippi and Alabama, where the crop is practically a failure, one picking got the crop, the average in many counties being a bale to the acre or less. Over the entire cotton belt the crop this season has been rapidly picked and there is less cotton remaining in the fields than usual at this time of the year. The picking season will average two or three weeks early.

HICKMAN HAS CHAMPION TEAM.

The deciding game for the championship of West Tennessee and West Kentucky was played on the Hickman grounds last Sunday by Hickman and Martin, the former winning by a score of 18 to 2. Joe Engle was on the mound for Hickman, and had the Martin boys completely at his mercy. Hickman closes the season with a fine record, having lost a very small percentage of the games played. The team has disbanded until next year, when it is thought that a better team than the one this year will be organized.

What Does Catarrh Mean?

It means inflammation of a mucous membrane somewhere in the head, throat, bronchial tubes, stomach, biliary ducts or bowels. It always means stagnant blood—the blood that is full of impurities. Left alone, it extends until it is followed by indigestion, colds, congestion or fever. It weakens the system generally and spreads its operations until systemic catarrh or an acute illness is the result.

Peruna

Is the nation's reliable remedy for this condition. It restores appetite, aids digestion, checks and removes inflammation, and thus enables the membranes, through which we breathe and through which our food is absorbed, to do their work properly. Forty-four years of success, with thousands of testimonials, have established it as the home remedy—Ever-Ready-to-Take. Its record of success holds a promise for you.

MAT BYNUM DIED.

Mat Bynum, a resident of West Hickman, died at 12 o'clock last night, after a lingering illness of tuberculosis. He was born in Tennessee Aug. 21, 1869, and had resided here for the past six or seven years and worked for the Mangel Box Co. Deceased is survived by a wife and two or three children. The remains were carried to Dukedom, Tenn., this morning for burial.

BAPTIST ALL-DAY RALLY AN ENJOYABLE AFFAIR.

The church rally—extending throughout the day Friday—by the Baptists of Hickman, was an enjoyable affair and well attended. Dr. I. N. Penick, of Martin, Tenn., delivered a fine address during the morning. At noon, "dinner on the grounds," was a very attractive feature of the program. In the afternoon, two interesting papers were read by Mesdames L. McMakin and H. J. Crain. In the evening hour, Rev. Jas. B. Hunsley preached a good sermon. Rev. Crain, the local pastor of the First Baptist church, acted as master of the ceremonies. It was a most pleasing affair and its repetition will be welcomed by all who had the pleasure of attending upon this occasion.

LETTER TO HUGHES.

Dear Mr. Hughes:
You'll please excuse
My dullness if I seem obtuse,
Or fail to properly enthruse,
When you break loose.

The papers give me all the news
And more advice than I can use;
But when I try to get your views
On public questions, then I lose
My patience, and I sigh and say
"Oh, what's the use!"

I give the devil all his due:
I rather like you, Mr. Hughes,
When you were judge. But
when you choose
To be a knocker and abuse
Our President, I must refuse
To read your "ooze."

The Democrats you still accuse;
Your lamentations I pursue.
These may alarm—they can't amuse,
And thinking men they won't confuse;

But altogether, Brother Hughes,
You're too profuse.

One final work before adieu:
If you would stand in Wilson's shoes

You'll have to try some other

For, by the gods, you're going

to lose!

The Republican party will get its

dues;

You're up against it Mr.

Hughes.

DIRT FLYING ON THE WEST HICKMAN LEVEE.

With all interested parties co-operating in the fullest measure, work was begun in earnest on the West Hickman levee yesterday morning by the Dixie Construction Co., who have the contract for the work. They have their work train and about forty men at work now. By Monday morning Mr. Worley hopes to have double this number of men and another work train on the job.

The right of way for the levee was cleared first of the week, or enough of it to give the construction company plenty of room, and train load after train load of dirt is now being dumped on the new levee line. The big steam shovel is digging dirt for this embankment from the J. W. Ward property south of town. Finer earth for levee building could not be asked, as it is of a sticky clay formation that will stay "put."

The levee is to have a 68 foot base and will be several feet higher than the standard government levees, which insures adequate protection from even higher waters than we've ever experienced.

The levee committee was indeed fortunate in securing the services of the Dixie people on this job. They are thoroughly equipped for this kind of work, besides being experienced in it. With favorable weather, the work will go forward rapidly. It is interesting to watch them at this work. Everything is done by specially designed, powerful machinery. The cars are loaded by machinery, the dirt is dumped by machinery—and the spread by a huge steel wing projecting from a car, putting the dirt at exactly the right place and leaving it as smooth as a marble ground.

Nothing succeeds like success: West Hickman is going to be protected from such disasters as we experienced in 1912-13-16, which means that end of town will forge ahead.

BASEBALL SUNDAY.

A game has been arranged with the strong team from Wickliffe to be played here Sunday. Joe Engle will pitch for Hickman and a good game is assured. Hickman is the champion team for West Kentucky, and Wickliffe has one of the strongest amateur teams that has played here this year.

Patron Saints.

There is no complete or authentic catalogue of the patron saints of the various countries of the world. The patron saints of the foremost countries are as follows: Spain, St. James; Germany, St. Michael; Austria, the Virgin Mary; Italy has various saints for her various provinces; St. Charles is the patron saint of Lombardy and St. Maurice of Piedmont.

From a Greenville, Miss., exchange we clip the following concerning the burns sustained by Mary Louise, little daughter of T. A. Holcombe and wife: "Little Mary Louise had struck a match and was attempting to light a fire in the grate when her dress caught fire. Her cries were heard by the colored cook, who extinguished the flames with a dash of water from a pitcher, but not until after the little girl had suffered serious burns on her face and other parts of her body. Late reports say the little Miss is improving."

Jack Stinson was just out of college, very rich and anxious to spend as much of his money as he could upon beauties of the stage. The prima donna of the company was helping him nightly until he clapped his eyes upon a pretty ballet girl—and then he called for a new deal. The ballet girl had ideas on saving money and not on spending it. Jack and the ballet girl formed a platonic corporation with the ballet girl as treasurer. Then things began to happen—for Jack's mother was the leader of the Orphan's Adoption Society, and the ballet girl was supporting an orphaned sister and baby brother. Jack's mother and the Juvenile Court upset the platonic romance between Jack and the chorus girl, turning the affair into an out and out love story, ending happily in marriage. With other plots and counterplots to make an exciting and interesting photoplay, "Bobbie of the Ballet" will present this story in Bluebird Photoplays at the Crystal Theatre on Friday at 5c and 10c with Louise Lovely playing the captivating ballet girl.

REVIVAL MEETING CLOSED.

The Christian church revival, in progress for the past four weeks, came to a close Monday night, with a dozen or more additions to the church, six of whom were immersed at the last service. Dr. S. M. Martin, the noted evangelist from Seattle, Wash., who has been conducting the services, is a very able preacher and his work has been a great benefit to the town and community. His daughter, Mrs. Hatcher, who had charge of the choir, is a fine leader. Dr. Martin and Mrs. Hatcher will conduct a meeting at Hopkinsville, Ky., beginning next Sunday for which place they left this week.

LEVEE BOARD LOSES. MAY TIE UP ALL WORK.

A case of more than passing interest disposed of in circuit court yesterday was that of W. C. Johnson, Goulber Johnson, Rob Goulber, George Terrett and the heirs of R. B. Goulber vs. the Fulton County Levee Board, in which case Judge Gardner rendered an opinion in favor of the plaintiff.

The fight was one testing the legality of an action by the Board in 1915, when they contracted with Will Boudurant for certain emergency work on the Redfoot levee and assessed an acreage tax against the landowners for the payment of same. The plaintiffs in this case refused to pay the acreage tax assessed against them—amounting in all to \$493, contending that they had no notice of such assessment, and therefore "no day in court" or opportunity to appear before the Board and protest against the assessment, as required by law, that the rate was inequitable, etc. The sheriff proceeded to attempt to collect this tax, but an injunction was granted restraining the sheriff from so doing, and Judge Gardner's decision amounts to a permanent injunction. In delivering his opinion, Judge Gardner said it was unfortunate that such a suit had been brought and he decided the case against his sentiments, it being a mere question of law which he was called upon to decide.

Just what effect this will have on the proposition of building the loop at mile four, where the river is now within 100 feet of the levee, remains to be seen. The Board a few days ago issued bonds to the extent of \$35,000, the amount required of the land owners by the government, to do this work. The bonds were sold to the landowners, and in turn the money was sent to the federal authorities. Some of the members of the Board are now of the opinion that the work will not be done for some time—if at all—and someone may be out the price of the bonds. They also say without power to assess and collect an acreage tax, it will be impossible to do anything in the way of improvements, as the entire amount of ad valorem tax is required for current expenses; furthermore, that the government is hardly likely to be willing to proceed with the work under the circumstances, although the contract has been let for the mile four loop.

The Board immediately took steps for a hearing before the Court of Appeals.

GERMAN TRENCHES HAVE ALL HOME COMFORTS.

Paris — Soldiers back from the battle of the Somme always tell wonderful stories of the German dugouts, a maze of underground dwellings and passages, with large chambers for the men and finely appointed rooms for the officers. One correspondent says:

"The German front in the west is like one huge straggling village, built of wood and strung out along a road 300 miles long. Of course, the houses are all underground. Still they are houses, of one or two floors, built to certain official designs. The main entrance from the trench level is, sometimes at any rate, through a steel door, of a pattern apparently standardized, so that hundreds may come from the factory on one order and missing parts be easily replaced.

"Inside a flight of from 20 to 30 stairs leads down at an easy angle. The treads of the stairs and the descending of the roof of the staircase are formed of mining frames of stout timber, with double top sills; the walls of thick planks, notched at the top and bottom to fit the frames, and strengthened with iron tie-rods running from top to bottom of the stairs and with thick wooden struts at right angles to these.

"At the foot of the stairs a tunnelled corridor runs straight, for anything up to 50 yards, and from this are open rooms and minor passages on each side. In many dugouts a second staircase, or two staircases, lead to a lower floor, which may be 30 to 40 feet below the trench level. All these staircases, passages and rooms are in the best specimens, completely lined with wood and as fully strengthened with it as the entrance staircase.

"In one typical dugout, used as a dressing station, there are beds for 32 patients and a fair-sized room. Another, near Mametz, was designed to house a whole company of 300 men, the needful kitchens, provision and munition storerooms, a well, a forge riveted with sheets of cast iron, an engine room, and a motor room.

"Many of the captured dugouts were lighted by electricity. In the officers' quarters there have been found full-length mirrors, comfortable bedsteads, cushioned arm chairs and some pictures. One room is lined with glazed wallpaper, and the present English occupant is convinced by circumstantial evidence that his predecessor lived there with his wife and child. Clearly there was no expectation of an early move.

"In the old German front trench south of La Boisselle an entrance like that of a dugout leads to a flight of 24 stairs, all well finished. At their foot a landing three feet square opens on its further side upon a nearly vertical shaft. Descending this by a ladder of 32 rungs you find a second landing like the first, opening on a continuation of the shaft. Down this ladder of 60 rungs brings you to the starting point of a almost straight

The European war has raised the deuce in the cost of nearly every commodity. Woolens have advanced in price from 25 to 100 per cent, consequently there is a material advance in the whole-sale cost of producing an all wool suit or overcoat.

The SCOTCH WOOLEN MILLS who handle our tailoring business would be justified in asking of their many dealers an advance in price, BUT THEY HAVE DECIDED NOT TO RAISE THEIR PRICES realizing that the tremendous increase in their present large volume of business will more than make up for the sacrifice in profit.

We are heartily in accord with the SCOTCH WOOLEN MILLS policy, therefore you can come to this store and have your measure taken for STRICTLY ALL WOOL SUIT OR VORCOAT AND YOU WILL NOT BE ASKED TO PAY A SINGLE CENT MORE THAN THE REGULAR S T A N D A R D PRICE—NO LESS THAN \$15—NO MORE THAN \$20.

level tunnel, three feet wide and above five feet high, cut for 56 paces through pure hard chalk.

"No doubt the size and the overhead strength of German dugouts kept down casualties under bombardment, and sometimes enable the Germans to bring up unsuspected forces to harass our troops in the rear with machine gun and rifle fire when a charge has carried our men past an un-cleared dugout of the kind. On the other hand, if our advance is made good, every German in such a dugout will be either dead or a prisoner.

"No doubt, again, the German dugouts give more protection from very bad weather than ours. But they also remove men more from the open air, and there is nothing to show that the half buried German army gains more by relative immunity from rheumatism and bronchitis than it loses in the way of general health and vitality.

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio. — "I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."

Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

STRANGE EYE DISEASE.

Nellie, the little 11 year old daughter of Mr. and Mrs. Chas. McNeil, is suffering with an eye trouble which the attending physicians are unable to name and is probably a new disease. The eyelid is being gradually eaten away by an obstinate sore-like wound, in some respects like a cancer, and the little lady suffers great pain. The physicians are now endeavoring to produce an antitoxin with which they hope to effect a cure.

AN APPEAL.

From State Campaign Chairman
J. C. Cantrill To The Democrats of Kentucky.

As you are doubtless aware it takes a large amount of money to pay the absolutely legitimate expenses of a campaign. Even the matter of postage is a big item and to prepare the campaign matter and mail it to the voters require a small army of stenographers and typewriters. The postage, preparation and stationery of a single letter to every voter in the State costs \$15,000 and all of them will have been written to several times before the election. Besides there are many other expenses that must be met such as office rent, office force expense, traveling expenses for speakers, etc. The Democratic party has no large contributors to rely upon, no Wall Street, no railroad managers. The expenses of the campaign must be met by the people as I will not seek the contribution of a single corporation in the State.

President Wilson, supported by a Democratic Congress, has achieved more in the last three and a half years of control than was ever before achieved in ten times as many years by any administration. Its useless to enumerate the list of splendid laws that have been passed on the statute books which have vitilized the nation. The people owe it to President Wilson and to themselves to retain him in office to continue the good work he is doing.

By filling out the following blank and enclosing amount you desire to donate you will greatly aid the cause of Democracy:

J. C. Cantrill,
Chairman Dem. Campaign Com.

SUN BROS. CIRCUS HERE NEXT MONDAY.

Strange sights and still stranger animals will be among the many things that will be unloaded when the big show train of the Sun Brothers World's Progressive Shows arrive in Hickman next Monday morning.

This is the date of the appearance here of this well known amusement enterprise. Long before dawn the railroad yard will be the center of attraction for the younger generation of town and many a household will be startled from its peaceful slumbers at an unseemly hour by the tinkling of the alarm clock under the pillows of the small boy. In fact, a few comfortable beds will be left undisturbed throughout the entire night, their usual occupants preferring to remain awake and thus run no risk of missing the opportunity of witnessing the arrival and unloading of these great shows. The Sun Brothers' Shows for this season have an all new equipment and brand new plethora of acts and performances in all its departments, in fact it can truthfully be said that it is an all new show. The only recognizable thing of its past seasons is the adherence to their old time policy of never allowing at any time or place any gamblers, sure thing men, confidence games, fortune tellers, dancing girl show or anything in the nature of a roped-in device. These issues have never been tolerated with this show nor will they ever be countenanced. Two complete performances will be given here during their engagement and the assurance is made that both performances will be presented without any enticement whatever. Many new and novel free outside exhibitions are offered this season and are said to be of an unusually entertaining and "thriller" character.

NEW CORN DANGEROUS.

Hogs often take cholera soon after being put on a ration of new corn, and its use is often condemned on this account. New corn alone is not the cause of hog cholera, but it may be a factor, along with other conditions, that helps weaken the vitality and renders the animal less resistant to disease. In order that new corn may be fed with safety, the animals should be put in a healthy, vigorous condition before time to begin feeding.

When the animals are in a thrifty growing condition, there should be much less danger but the herd should be gotten on full feed gradually. It is well to give them about a stalk of corn per hog the first day, gradually increasing it by one stalk a head every day or so that it is getting two stalks the third day, three stalks the fifth day, and so on until they are on full feed.

This gives the stomach time to adjust itself to the new ration and is a specially good thing to do before turning old hogs into the field to hog down corn.

FERGUSON FOUND GUILTY SECOND DEGREE MURDER.

The jury in the Al Ferguson case at Union City returned a verdict, Monday morning at 9:30 o'clock, of murder in the second degree which is 10 to 20 years in the Tennessee penitentiary.

A motion for a new trial will be heard by Judge Jones as soon as he finds time to listen to the arguments. Ferguson's bond was placed at \$3000.

The jury deliberated on the case from early in the afternoon Saturday until Monday Morning. It is said that seven stood for manslaughter and five for murder in the first degree, but finally settled on the above verdict.

The killing of Policeman Will Roberson, of South Fulton, Tenn., by Al Ferguson took place on the Tennessee side September 21, when the two men engaged in a pistol duel.

The case has been the quickest brought to trial, with its details systematically worked out, in the history of Obion county.

SAFETY FIRST.

Calomel! Sickens, Weakens and Often Salivates.

Calomel is not a safe thing to take internally because of its unpleasant after effects. Calomel being made of mercury is an unwholesome remedy and is liable at any time to salivate you. Its action is so violent and its after effects so injurious that it is becoming less popular every day. People who believe in "safety first" are taking Lemolac in place of calomel. Lemolac possesses the virtues of calomel without its unpleasant and dangerous after effects. Lemolac does not gripe, sicken or weaken, and being purely vegetable, cannot salivate you.

We believe Lemolac will please you, as it is rapidly becoming the most popular liver medicine on the market, but will refund your money if you are not satisfied with it.—Helm & Ellison's.

P. S. If you forget the name spell calomel backwards. Advt.

Courier's Home Circle

It is one of the paradoxes of life that the more a woman keeps her husband in hot water the colder he grows toward her.

The man who never praises his wife deserves to have a poor one. And the man who praise a good wife more than she deserves hasn't been born yet.

A happy home does not result from a large income. A large amount of love, plenty of good sense and a very little money will make a happy home circle.

Never think you can afford to be dowdy at home. Cleanliness, hair well dressed, and a smile will make calico look like silk in the eyes of a father or brother.

When crepe on the door tells of a mother gone, only those who have moistened a mother's grave with their tears can fully understand and read aright the black threads in the bow.

We know from sad experience that it is very inconvenient to be poor, but no man is poor who has a happy home and it does not require lace curtains or velvet carpets to make a home happy.

Many a child goes astray, not because there is want of prayer or virtue at home, but simply because home lacks sunshine. A child needs smiles as much as flowers need sunshine.

There are many happy homes, thank God, in every community, and when they exist there goes out from them a blessed influence which can hardly be overestimated. "A real home with a mother in it," whose hospitable doors are ever open to those not so blessed, is a wonderful power for good.

Let us take time to get acquainted with our families. The wealth you are accumulating may be a double blessing to the son who is a stranger to you. Your beautifully kept house, busy mother, can never be a home to the daughter whom you have no time to caress.

The virtues grow about the home. They cluster, bloom and shed their perfume around the fireside. Love, husband, wife, father, mother, child and home—without those words the world would be a barren wilderness, and men and women but brutish beasts.

There are none of us so poor but we can train a few roses on the humble wall and their scent and beauty will long be remembered, and many a boy, instead of going to loaf upon the public highway will linger at home among the flowers. Moral: degradation always begins at home.

Of all places on earth, home is the most delicate and sensitive. Its chords move with a breath; its fires are kindled with a spark; its flowers are bruised with the least rudeness. Here our hearts wear no covering, no armor. Every arrow strikes them, every cold wave blows full upon them. If we would have a true home, we must guard well our thoughts and actions.

Why is it that we so easily forget that the little things in life are what make it easy or hard? A few pleasant words, a warm hand clasp, a cordial letter, are simple things, but they are mighty in their influence on the lives of those about us, adding a ray of hope to many disconsolate hearts, giving a bit of courage to disappointed, weary ones and helping to make our own lives sweeter at the same time.

When hearts are broken and friends fail, this active stirring world of ours makes room for us all to go to work and forget our trouble. If it were not for some thing to do and the chance to do it, what would become of the mother when her baby dies? Do you think she would ever recover from such an anguish if she found nothing to do but to close

Does yours bring joy to the breakfast table?

North—East—South—West—women are solving the coffee problem.

Armies have solved it. "An army travels on its stomach" and of the army breakfast, ask any soldier what he would miss most.

Famous restaurants have solved it. They know that without the right coffee they would have failed.

One of the greatest American judges has said that unhappiness in the home

commences with the first cup of poor coffee.

There is a coffee which brings a million men to breakfast "in a hurry"—a coffee that makes all these men eager to get to the breakfast table, slow to leave it.

Your grocer has this coffee—Arbuckles'. Today you can introduce its rich, full flavor in your home. Serve Arbuckles' for a week and notice how much more his breakfast means to him. Bring joy to your breakfast table.

Today there are whole towns where Arbuckles' is practically the only coffee used. In one State, alone, in a year, four pounds of Arbuckles' Coffee was used for every man, woman and child in the State—four times as many pounds of coffee as the population of the State!

STYLE SAYS "THIN GIRLS."

The new girl is an unpuffed girl. Hips have vanished; skirts have lengthened; the flaring line is now the limp line, in a word, we now have a swagger, stately girl rather than a billowy, vivacious one. She takes up less room. But she's the model to cop just the same. Again it is the style that does it.

The Court of Appeals ruled that the nomination of M. J. Meagher, of Frankfort, for a Senate seat made vacant by the retirement of Senator George Speer, was void because the Governor had not issued a writ of election.

COAL FAMINE IMPENDS.

Kentucky and Tennessee coal operators are unanimous in the opinion that the entire country will face before January 1st the most serious coal famine in its history unless some relief can be obtained from the present critical coal shortage.

United States government figures show a 25 per cent increase in coal consumption during the first six months of this year as compared to the same period in 1915. Since July 1st the increase seems to have been greater, while the coal supply has been getting worse.

Operators in this field claim they have done everything in their power to have the coal supply improved, appealing to the Interstate Commerce Commission to no avail.

Prices have advanced by leaps and bounds, but this does the operators little good, as most of them are shipping on low priced contracts, getting only a three days run with six days overhead expense and labor becoming disorganized because of short runs.

Local railroad men say that the coal shortage is due to abnormal improvements of traffic of all kinds and the failure of other roads to return coal equipment.

Operators say they can do nothing more and that it is now up to the railroads and Interstate Commerce Commission to see that coal equipment is given proper handling. This is the only thing that can prevent many steam plants from closing down and keep the public from actual suffering due to inability to get heating coal. Hickman dealers are taking care of their trade so far, but it has been no easy matter to secure regular shipments, and what the future holds, only time will tell.

NOT AN ISOLATED CASE.

Many Similar Cases In Hickman And Vicinity.

This Hickman man's story given here is not an isolated case by any means; week after week, year after year, our neighbors are telling similar good news.

C. A. Watson, Hickman, says: "I suffered from pains in the small of my back, which were always more severe if I stooped or lifted. My back ached at night and in the morning I was nearly lame. I tired easily and occasionally had nervous spells. Headaches bothered me and I was subject to dizzy spells, when my sight blurred. Colds steered on my kidneys and the passages of the kidney secretions became too frequent. This was particularly annoying during the night and I was often obliged to get up several times. I got Doan's Kidneys Pills at Helm & Ellison's Drug Store, and one box cured me."

SEED LAW IN EFFECT.

The new pure seed law, enacted at the last session of the General Assembly, and approved by the Governor March 23, became operative last Saturday.

In a bulletin just issued the director of the Kentucky Experiment Station says:

"The interests of both the farmer and the seedsmen are comprehended by the new law. Its intention is to afford the farmer protection against contaminated and worthless seeds and to protect and encourage those parties engaged in the production and marketing of high grade farm seeds. The reputation and adaptation of Kentucky for the seeds of bluegrass, sweet clover, hemp and white burley tobacco is already recognized and the operation of the pure seed law is expected to establish our seed producing industry on a still more secure basis."

"Under the provision of the law now seedmen are permitted to test their own seeds and to use the results of these tests on their tags. But all tests must be made according to the rules and regulations adopted and employed by the Association of Official Seed Analysts of North America."

The high prices being paid for cattle and hogs would indicate to the farmers that they should keep plenty of them on hand for use and for sale. This is a time for diversified farming.

HAD A LOT OF SENSE.

There was an old geezer and he had a lot of sense. He started up a business on a dollar-eighty cents. The dollar for stock and the eighty for an ad brought him three lovely dollars in a day, by dad!

Well, he bought more goods and a little more space, and he played that system with a smile on his face.

The customers flocked to his toby four and soon he had to hustle for a regular store. Up to the square, where the people pass, he gobbled up a corner that was all plate glass. He fixed up the windows with the best that he had and told them all about it in a half-page ad.

He soon had 'em coming and he never, never quit, and he wouldn't cut down on his ads, one bit. And he's kept things booming in the town ever since, and everybody calls him the Mer-ant Prince.

Some say it's luck, but that's all bunk—why he was doing business when the times were punk!

People have to purchase and Geeser was wise—for he knew the way to get 'em was to advertise.

MINIMUM LOAN PRICE 12 CENTS ON COTTON.

Henry N. Pope, president of the Farmer's Union President's Association, has submitted to all southern members of Congress the suggestion that Congress fix or empower the federal reserve board to fix a minimum loan price of 12 cents per pound on cotton for all crops. A large majority of the replies from Senators and Representatives favor the plan, and Mr. Pope stated that he would call a special meeting of his association in New Orleans at an early date to give it final consideration and work out the details.

President Pope states that there should be a careful distinction between the loan minimum and the selling minimum of cotton. "The loan minimum should be protected by the government," he said, "and cotton would, of course, never be sold below that point. The selling minimum is one that the union advises its members to sell, and may vary from crop to crop or from time to time. With a protection loan minimum of 12 cents the selling minimum of 20 cents can be easily obtained. The government would never be called upon to put up one cent under this plan, for when a farmer knows he can borrow 12 cents per pound on cotton he will never sell unless he can get a much higher price. Neither could the consumer be penalized for the fluctuations in the price of cotton, has little effect upon the price of the finished product to the consumer. We expect to mature our plans at our meeting at New Orleans, and it is likely we will seek the counsel and approval of the federal reserve board before presenting our plans to Congress."

In order to love mankind, we must not expect too much of them. It is a rare gift to be able to choose and be satisfied.—Frank Crane.

USES FOR MARSHMALLOWS.

Marshmallows as a confection dipped in peppermint fondant, are a delightful after-dinner treat. A marshmallow dropped in a cupful of hot cocoa at the children's parties will please them better than whipped cream, and is so easy to do.

A marshmallow placed on snail wafers, the small, round ones and put into the oven to brown, makes most attractive margarites.

Marshmallows cut in quarters with sharp shears and mixed with pineapple and whipped, sweetened, flavored cream, and served in sherbet glasses, is a dainty dessert.

A most delightful fruit salad may be made with pineapple, strawberries, marshmallows, and two or three tablespoonfuls of a good hotted salad dressing stirred into a cupful of whipped cream. Serve very cold in a pretty glass dish.

Marshmallows cut up and added to the hotted frosting while it is hot is a favorite filling for a cake as well as a good icing.

Marshmallows.—Dissolve one package of gelatin in 14 tablespoonfuls of water. Boil together four cupfuls of sugar and 14 tablespoonfuls of water until it forms a thread. Pour the syrup over the gelatin in a deep dish and beat until thick; flavor as desired, and put into a pan of powdered sugar to coat each marshmallow.

Marshmallow Frosting.—Melt one cupful of white fondant, add the white of an egg, beaten stiff, and stir over the fire two minutes; remove from the heat and beat for two minutes, or until stiff enough to spread; flavor with any desired flavoring. This is especially good on chocolate cake.

Marshmallow Paste.—Put a fourth of a cupful of sugar and the same amount of milk in a saucepan, heat slowly to the boiling point, and boil six minutes. Cut a fourth of a pound of marshmallows in pieces and melt in a double boiler; add two tablespoonfuls of hot water and cook until the mixture is smooth; then add the hot syrup gradually, stirring constantly. Beat until cool enough to spread, then add a half teaspoonful of vanilla. Use either for filling or frosting.

BIG DELEGATION COMING THURSDAY, OCT. 19th.

The Kentucky State Fire Prevention Association, or rather about fifty of its members, will be in Hickman, Thursday, Oct. 19th, to spend the day with us and tell us how best to prevent fires. These gentlemen are not connected with the fire insurance companies; merely an organization formed to educate people, by simple methods, how to save thousands of dollars a year by preventing fires. The very nature of their mission recommends the visitors to our courtesy and hospitality, and arrangements should be made to properly entertain them while within the city's gates. They will be here all day. They will inspect our fire hazards and tell us how to remove them. Good speakers are among the delegation, and they hope to address a large gathering of men, women and children. Through courtesy of the Loyal Order of Moose, the public meeting will probably be held at their club rooms.

Mayer Dillon will likely appoint a committee to represent the citizens and extend our visitors a cordial welcome, showing them that true Kentucky hospitality exists in the extreme corner of the State, as well as the Blue Grass.

MOTHER LOVE AIDS SON IN TRENCHES.

It Brings Relief to Boy Standing
His Watch Deep in Mud.

Once upon a time, only a few months after this terrible world war had begun, Private Bailey, a soldier in the ranks had stood for days in the trenches "somewhere in France." The cold rains soaked him to the skin; the mud was deep. He had had no rest. Weary and aching with rheumatic pains, he recalled the faith his mother had in Sloan's Liniment. He asked for it in his next letter home. A large bottle was immediately sent him and a few applications killed the pain, once more he was able to stand the severe exposure. He shared this wonderful muscle-soother with his comrades, and they all agreed it was the greatest "reinforcement" that had ever come to their rescue. At your druggist, 25c, 50c and \$1 a bottle. KILLS PAIN

Mrs. Horace Luten and Mrs. F. T. Randle entertained Thursday afternoon at 3:30 at a linen shower in honor of Miss Marie Brevard. The guests were cordially received by Mesdames D. B. Wilson and C. T. Bondurant and in the hall they met Mrs. F. T. Randle, Miss Marie Brevard, Mrs. Horace Luten and Mrs. R. B. Brevard. From here they were invited into the parlor and here Miss Leonora Amberg invited the guests into the dining room which was decorated in hearts and carnations. On the table were many beautiful linen pieces. At the close cream, cake and heart shaped mints were served. About forty guests were present.
